

November Newsletter

November has certainly been a challenging month for all at St Mary's. Many of the community have been impacted by COVID and we wish all those who are still unwell a speedy recovery. You remain as ever in our prayers. Due to the incredible resilience of our children, the dedication of the staff and support of parents and governors, the school has continued to operate face-to-face learning with minimal disruption. Huge thanks to everyone for their commitment and care for all in our community.

The photos demonstrate that even in the most challenging times the children still love to learn and live out our Mission Statement

“Aiming high, dreaming bigger, growing together in God’s love”

As we enter Advent the school begins its preparations for Christmas. I am delighted that we will be holding Christmas Fayre Events for the children during school time and some of the stalls will be held outside after school, please see the Friends newsletter for further information. Nativities will be held in school and recorded for parents to view; information will be sent to individual classes over the coming weeks.

Please see link to Mission Together Advent resources and activities that you might like to do at home

We would also like to thank the Charity Friends of Royston District Hospital for the grant to purchase our own defibrillator for paediatric and adult use. We will share with the Church so all in our community will benefit.
