

ST MARY'S Catholic Primary School

Melbourn Road, Royston, Hertfordshire SG8 7DB Tel: (01763) 246021

March 2020

Dear Parents,

I am sure the closure of St. Mary's has not come as a surprise to you. Unfortunately, an unprecedented global event is impacting on us here in Royston.

Year 6 have worked so hard this year and made really good progress. Learning is paramount for the future of all our children. I know it is difficult, but I have some suggestions that may help.

Children must continue to read as much as possible, from a range of texts.

I have sent home some tests for the children to complete. I don't know whether the SATs will take place, but the tests will still help them.

I suggest them doing some projects as well. A city project, on a world city, maybe one visited, is something Year 6 undertake during the Spring/Summer term.

Research and projects on Britain since World War II and Ancient Egypt could also be undertaken.

I recommend using the BBC Bitesize website for revision, along with Maths Genie. The children have logins for Purple Mash, where there are many activities for them to undertake.

I will tweet any other activities/projects I think will be of benefit.

I hope disruption is minimal, but during these difficult times we just don't know how long schools will be closed.

I wish you and your families the very best and pray that this disaster ends soon, and life returns to normal.

Yours sincerely,

Gavin Pearce
Year 6 Teacher
