

National STEM Club

The national STEM Club provides an opportunity for young people, families and schools to take part in club sessions provided by STEM Learning. Schools and families can engage in practical and hands-on STEM activities that support curricular learning within a club style environment. Boosting understanding and knowledge of STEM topics.

Schedule

Sessions will occur fortnightly during term time on Wednesdays starting at 16:30. Lasting 30 minutes in length.

The planned dates are:

- November: 25
- December: 09
- January: 13 and 27
- February: 10 and 24
- March: 10 and 24

Club sessions

Club sessions will be delivered by a variety of STEM Ambassadors, partner organisations, schools, teachers, technicians and students. Aimed at different age groups and abilities.

The sessions will be pre-recorded, with subject experts and club leaders on hand during the sessions to answer questions in the YouTube chat. Join our YouTube community:

[STEM Learning - YouTube](https://www.youtube.com/stemlearning) – <https://www.youtube.com/stemlearning>

Activities

Activities can be carried out at home, in labs and even outside – in short, any setting, with little to no equipment needed.

Aiming to challenge students and provide content that will stretch capabilities, providing a wide and diverse collection. All club sessions will be supported by an information leaflet (free to download) which outlines the basics of the activity, the materials needed, with links to the originating organisation.
