

Scooters, bikes and general sickness

Dear Parents,

We are noticing some scooters and bikes are being left on the school site, we cannot control who might be touching these items during the day so believe that it is safer for parents to take these home during the day to keep everybody as safe as possible.

With regard to general sickness messages left on the school answer phone, please could you give details of the symptoms that your child is experiencing as we have to keep a detailed note of this for Government reporting.

Thank you

Kind regards

Laura Allen
