

**Subject:** FW: Flu Vaccine Letter from Public Health England - Barcode

Please be aware...

We have been notified of a letter sent out by Public Health England to all relevant school age children and for this letter to be brought to the school as it contains a bar code.

Whilst this might be the case with some providers, this IS NOT the case for Vaccination UK and the service we are providing for schools. Please can you advise the parents to ignore this correspondence.

We are sorry if this letter has caused any confusion, however as an aside, children may also receive a second similar letter which parents can also ignore if they are receiving the vaccine via us through the School Immunisation Programme

Kind Regards

Kim Clifford  
Office Administrator
